Look cool at your next promotional event with these stylish colored lens sunglasses! This trendy accessory protects eyes from the sun while also keeping you looking good. These sunglasses are FDA approved and offer UV 400 to shield harsh sunlight.

Save your eyes with these blue light blocking sunglasses. Wearing these can help limit eyes from exposure to blue light (mostly found in technology items such as phones, tablets and computers) which can cause strain to the human eye. The wavelength of blue light can be harmful to the retina (generally discomfort) and can even affect sleep. Lenses also feature ultraviolet protection level UV400 (100% UV).

# ART REQUIREMENTS & SPECIFICATIONS

## CAMERA-READY ART

Camera-ready art is defined as black and white line art that has sharp, clean lines, requires no retouching, and is complete with text and/or graphics. Clean, black and white copies printed at 800 dpi or higher are usually acceptable.

We expect that you have proofread your art and/or copy before sending it to us and that it is correct and ready for immediate processing.

Spot color separations submitted in paper form are only acceptable if the colors do not overlap.

Artwork is not returned unless requested.

### **Art is not camera ready if:**

- in color, unless being used for a 4 color process order
- a gray tone, halftone, shadow, texture, or screen
- photocopied or faxed
- a business card, stationery, or newsprint
- soiled, smudged, torn, or bent
- we have to add text to a logo
- we have to add a logo to text

**Screens or Halftones:** We do not print halftones or screens. Please send solid 1-color art.

**Typstyles:** If we are to set type for your order, we will match the typestyle as closely as possible, using fonts in our system, to your supplied copy or artwork unless otherwise instructed.

## DIGITAL ART

We accept artwork submitted on CD-ROM or via email. If artwork is emailed, it must be indicated on your purchase order and the subject line of your email must include your purchase order number to ensure the proper art is matched to your order.

**Art email address: [art@graphcoline.com](mailto:art@graphcoline.com)**

**File size cannot exceed 10MB.**

**Please do not email purchase orders to [art@graphcoline.com](mailto:art@graphcoline.com). They may be overlooked. Please fax your purchase order, place the order online, or contact customer service for an order email address.**

To ensure timely completion of your order, we recommend using one of the following file types:  
Adobe Illustrator EPS PDF

We are MAC based; however, PC versions of these programs are acceptable. All fonts must be converted to curves/outlines and the file must be saved or exported as an .eps, .ai, or .pdf file. Page layout programs must include all supporting files and fonts. If using Illustrator, export your file as a MAC version in CS4 or lower. Please keep in mind that Corel Draw 11 and higher is not supported by MAC.

**Fonts:** We recommend that all text be converted to curves/outlines by the originating program. This eliminates font problems associated with the variety of fonts with the same name. If this is not possible, include both screen and printer fonts with your files. We can only accept Macintosh compatible fonts. We highly recommend Postscript fonts rather than True Type fonts.

**Include a hard copy of your artwork that shows layout, size, and color breaks**

Compress your files before emailing. We can accept files compressed with Stuffit or WinZip.

All files used to create artwork need to be included.

**We are unable to use files saved in the following formats: bitmap (.bmp), JPEG (.jpg), GIFF (.gif), PICT, CGM, MS Word (.doc), MS Excel, Powerpoint, or Lotus. We cannot use low-resolution images (less than 300 dpi).**

**Low resolution images can be recreated or cleaned up for an additional fee.**

**Redraw Fee: \$50 (G) per hour, 1 hour minimum**
