These masks do not remove the risks of contracting infections or disease.

Face Mask Information Sheet (A)

We can make any style mask in any size (Youth to x-large) and in either fabric polyester or cotton. Size changes will generally not change the base price of the mask (exception is oversized masks are 50¢ higher style # ND-88-ME).

General Information

Air freight is included in the price of all masks (anywhere in the continental USA)

All masks are made and printed in Cambodia.

All masks have a filter pocket (except the neck mask, #1023 & antimicrobial masks)

We carry masks sizes from adult down to youth. (Youth Styles 1089 SC and 1023 SC)

Production: Virtual pictures 1-2 days, after order is placed the spec sample picture is 3-4 days. When spec sample picture is approved its 8-10 days production, then add 5-7 days air freight for delivery. Masks can be shipped directly to your customer.

Case packaging 200 pieces bulk (individual bagging available add 50¢).

There are no set up charges for first spec sample. If the customer wants to make a change then there will be charges of \$60.00 per color on screen printed masks and \$180.00 on sublimated masks.

Blank masks are \$4.00 each.

Options and Upgrades

Filters: PM2.5 Filters \$1.00 each, over 25,000 pcs is 80¢. Packaged 25 per poly bag

To make a 3085 out of poly and sublimite the design charge the 2083 sub price plus \$1.00.

Metallic screen printed ink colors add 30¢

Any mask can have a third ply or layer add 50¢

Anti-microbial masks do not have a pocket but can be added for 20¢

Oversized mask sizes are available item # ND-88-ME (no pocket) for an additional 50¢

Adding slide adjusters to the 2083-L add 40¢

Individually poly- bagging a mask add 50¢

One color imprint is included in the price for screen print. Add 40¢ per additional color up to 3 colors.

Imprint area on cotton mask is 5 X 2 Inches.

Metal nose adjuster to secure the mask around the bridge of your nose for an additional 50¢.

Washing Instruction

Do not: bleach, dry clean or iron. All cotton masks will shrink somewhat. The hotter the wash water the more the shrinkage. For best results wash in cold water with like colors.

Filters

We now have PM 2.5 filters to fit inside of our masks. We are stocking them in California or they come with your order directly from overseas. The PM 2.5 filters mean that this mask can filter out tiny particles in the air. It filters out 95% of dust and particulates in the air and can be as effective as N95 or N99 surgical masks. Filters are good for about a week of normal use. They are not washable.
