

Your personal and business accounts will shortly be busy doing 2021 tax returns. Almost all are moving to giving the documents back to their clients digitally. NO, not in email but on a USB or CDROM. Call them or visit them now. Send them the end user safe version of this flyer. They are great prospects. You know them; you pay them. Here is your chance to sell them or even barter. Hey... what do you have to lose? This is probably the best lead you will have in months and it is well qualified. YES, you can also contact other accounts and preparers in your area.

## Build Your Image & Brand While Saving Money

How You Give Your Clients Their Records Reflects Your Brand

*TXUSB - The new credit card sized USB*

### Do The Math

- Save hundreds of dollars on copies.
- Save 30% off retail discs & USBs.
- Save on office labor and waste.
- Save on mailing heavy files.
- Save on storage.
- Save the environment saving trees.
- Save time.
- Save your image in a competitive tax world.

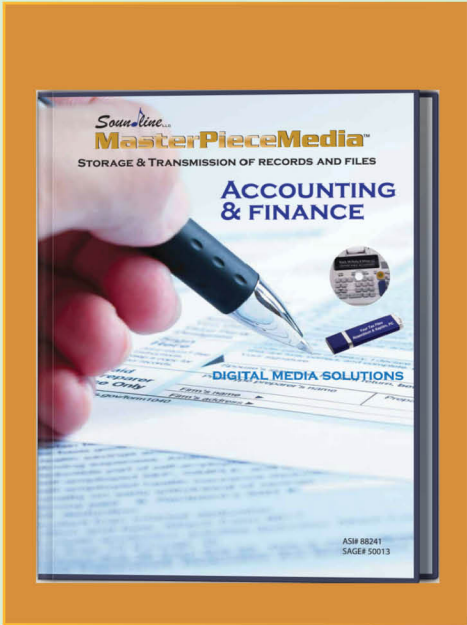

### When It Comes To Storing Tax Records, CDs Are Far From Dead. \*They Are Preferred.

- Stock designs ready for your logo and design branded on a top quality CDR or DVDR.
- Burn in any program. Write on "Sharpie" surface.
- Window envelope for protection.
- Branded sleeves available.

*\* A CD that is burned and closed is a time capsule. The contents can not be changed. During any inquiry into taxes, it presents a solid case for the accuracy of the content.*
