

UPCYCLING™ To a Second Life!

Refillable, Recycled Bottles Reduce Landfill Waste

What is Upcycling?

Diverting materials from the waste stream
& recycling to create a product
of higher quality & value
than the original.

Here's How it Works:

Single-use PET drink bottles
and milk jugs are reclaimed from
municipal recycling centers.

The containers are sorted,
shredded and sanitized to
meet FDA compliance to make
rPET material.

We manufacture NEW
Reusable Sports Bottles
from Post-Consumer
Recycled Materials

Good News! Did you know we can custom mold many of our Top-Selling Sports Bottles with Post-Consumer Recycled Content? Join us as we work toward an Eco-Responsible Future!
