A sustainable 2022...

SAME GREAT BOTTLE NOW MADE WITH MATERIAL DERIVED FROM 50% PLASTIC WASTE

Each bottle is created from resin powered by next generation recycling technology that transforms plastic destined for landfills into high-performance bottles.

Sustainability is in your hands. Nalgene is proud to be the first to market with a new resin powered by next generation recycling technology that transforms plastic destined for landfills into high-performance BPA/BPS-free bottles. Our new Nalgene Sustain product line is made from material derived from 50% waste plastic (using ISCC certified mass balance), further offsetting the use of fossil fuels and lowering greenhouse gas emissions.

FEATURES

BPA/BPS Free

So you can drink water that's safe and tastes great.

Built To Last

Our durable goods are made to last a lifetime.

Dishwasher Safe

Safe to put in dishwasher and easy to clean.

Fits Filtration Devices

Fits most filtration units for clean water in a pinch.

Fits Ice Cubes

Put ice in your bottle with ease and enjoy your frosty beverage anywhere.

Leak-Proof Guarantee

Continuous, straight shouldered semi-buttress threads keep the bottle sealed tight.

Lightweight

Engineered to count for when weight matters most.

Made in the USA

Local goods mean local jobs and fewer emissions.

Recycled Material

Made from recycled materials so you can look good and feel good.
