NEW Post-Consumer Recycled Insulated Auto Mugs!

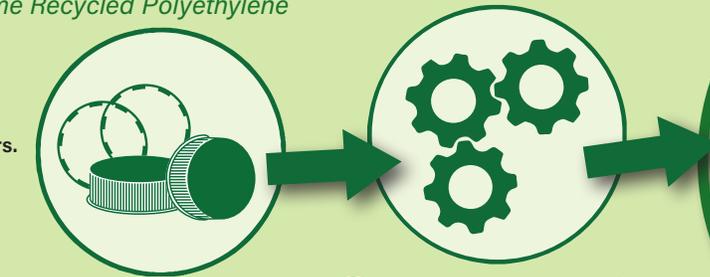

THE ECO TRAVELER INSULATED AUTO MUG

- Outer cup made from **50% Post-Consumer Recycled Polypropylene**
- Inner black liner molded from **100% Home Post Industrial Recycled Polypropylene**
- Lids Molded with **40% Home Recycled Polyethylene**

1. Single-use plastic bottle caps are collected from municipal recycling centers.

AVAILABLE IN 3 COLORS*

2. The material is sorted, shredded and sanitized for FDA compliance.

3. We mold the outer cup from this material and other components from home recycled materials to create a new, reusable auto tumbler.

*Post-Consumer recycled polypropylene colors will vary from batch to batch. This is because they are a mixture of different colored materials.
